from Beets, to be grown on land acquired by the Company, consisting of rich alluvial soil well adapted for their growth

This land contains all the essentials necessary for the cultivation of the best description of Sugar Beet, being very rich in vegetable matter, and experience has shown that it is unexcelled for the purpose. Large tracts of equally valuable land can be had on very favorable terms; certainly not exceeding one tenth of the price of similar lands in California, and important consideration, as it will make a large difference in the amount of capit all required.

al required.

From experiments already made on the land, the yield was found to be equal, if not superior to that from land cultivated in the most favored localities on the most imcultivated in the most favored localities on the most improved principles.

The percentage of Saccharine matter, according to published records of European cultivators, gives 8 to 9 per cent. as the average; whereas, in the Fraser Valley, the per centage was 10 to 11; six-tenths being granulated sugar of very fine quality, and the remainder molesses of fine flavor, a result unknown elsewhere.

This being the result on new land, and with the most imgerfect appliance, it will be readily understood, that with a proper system of cultivation, and with proper machinery, the profits of the company will be very large.

machinery, the profits of the company will be very large.

The quantity of sugar imported into this Province for the year ending June 30th, 1872, was valued at over \$100,000; the importation of Molasses, during the same period, amounted to \$13,000. It will, therefore, be seen that a ready market is open for all the sugar and molasses the company can produce. The pulp, or refuse, composes the best kind of food for fattening cattle during the winter months, when the highest prices are obtained for beef, mutton, &c.

The bost of labor, it is calculated, will be as low as in California, while the fuel and other materials, including

California, while the fuel and other materials, including the lumber for building, will be much lower.

As the company proposes to commence operations on a limited scale at first, the Capital Stock has been fixed at \$50,000, while power is reserved to the Sharchelders to increase the working capital to \$100,000, if considered

HUNG GAY. An Intelligence Office, ON PERRUARY Late, 1873; to supply the

ludverteige is tare bunt tond in be bie ber

Monday, March 26th, 1873 Local Industries. No country ever yet acquired substantial wealth and permanent prosperity in the absence of local industries. The importation of commodities for domestic use, whether in the shape of necessaries of luxuries, afford no true index whereby to judge of a country's increasing wealth and importance. In fact it not unfrequently indicates an unhealthy condition of affairs, and proves the forerunner o serious commercial disaster as well as loss of credit. It is with states pretty much as with individuals, unless the receipts equal or exceed the disbursements during the year, it is only a question of time as to when the one or the other will become insolvent and terminate their career in a financial crisis. England has become the centre of the world's monetary transactions, not because of the vast extent of her annual importstions, but as the inevitable result of her prodigious manufacturing resources and the development of local industries. She supplies her own people from her own factories with almost every hing they require for domestic use, and the money required for the payment of those comdities, amounting to millions of pounds annually, passes from hand to hand among the people, thereby promoting individual comfort and enhancing the sum total of comfort and enhancing the sum total of S. ISLANDS SUGAR, the nation's wealth. The Government of S. ISLANDS the United States, alive to the importance of fostering local industries, impose heavy duties upon all kinds of foreign manufactures imported into their country, as a protection against undue competition in kindred articles manufactured abroad. Their policy is to encourage local industries, as thereby employment is provided for the masses of the people, immigration is encouraged, and the material wealth of the country developed. It is not our purpose to discuss the relative merits of a free trade or protective policy in alluding to this subject, but simply to direct atten tion to the importance of encouraging in our own country, so far as po-sible, the opening up and development of such local industries as give promise of a fair margi of profit upon the amount of capital incharacter should receive the cordial sup-MANILLA ROPE-All Sizes, port and encouragement of our moneyet en. We are glad to perceive that an effort is now being made to organize s Joint Stock Company for the purpose of carrying on the manufacture of boo's and shoes and the tunning of leather upon an extensive scale, the prospectus of which appears in another column. The company will be styled the " Belmont Tanning and Boot and Shoe Manufacturing SANDWICE ISLAND RICE. Company, Limited," the capital of which is fixed at \$100,000, with power to increase; divided into 1000 shares of \$100 For Sale by WAR SACRET each. We learn from the prospectus that the company is formed for the pur-pose of acquiring the property known as the Belmont Factory, situate on E-quimalt Harbor, the business carried or therein, consisting of tanning and boot and shoe manufacturing, and continuing the same. It will therefore be seen that this is not an experimental enterprise, dependent upon future efforts to establish a business; but it is a business already established, and has two years' results to demonstrate the lucrative nature of the undertaking. The business is it thorough working order, well supplied with the most approved machinery, driven by water power, which could he in creased ten fold what is at present required, and in connection with the establishment is 546 acres of good land, known as the Spring Vale estate, which Emb24 in view of the fact that Esquimalt will almost beyond a doubt he made the erminus of the Canadian Pacific Railway, may become of immense value within poses. Considered, however, as a purely industrial enterprise, the present or fu and secondary consideration. Some idea may be had of the local demand for a stiller of the local demand for the local de very short period of time, independently les of boots and shoes from the fact that for the year 1871, the importations as declared at the Custom House, were about \$100,000, represen ing a selling value little if any short of \$150,000. In 1872, the actual sales of the articles manufactured at the Belmont Factory reached the large sum of \$30,000, which all things considered, is a most satisfac tory result of the year's operations, and on Wednesday, March 26 shows the high estimation in which the the country. The idea of combining the tanning business with that of the mann facture of boots and shoes, will give the local company a large per centage over the imported article, for the reason that the capital saved in the way of duties, freight, etc., would alone yield a fair profit upon the capital invested, and would eventually give the local manufacturers the almost exclusive command of this market. The probabilities are that with the greatly increased population that may be confidently looked for, consequent upon the commencement at an early date of the construction of the Canadian Pacific railway and other im portant public works, the market for the sale of home-made boots and shoes will be largely increased, and with the machinery already employed, we understand SILVER STAR MINSTREL that orders for twice the quantity of goods at present turned out of the estabhment could be filled, with little i any additional cost for manual labor. We sincerely hope the stock in this very im portant enterprise may be readily taken up, as we doubt not it will be, for we are fully persuaded it will prove not only reerative to those who put their money in it, but also of great advantage to the country, as furnishing employment to a large number of operatives and retaining in the country a large sum of money that would otherwise find its way into the

pockets of foreign capitalists, and leave

this one may prove but the forerunner of others equally as necessary and important, for which British Columbia presents a fair field, and gives promise of abundant success.

THE COMPANY IS PORMED FOR the purpose of acquiring the property known as the Belmont Factory, situate on Equimalt Harbor, and the business carried on therein, consisting of Tanulug, and Root and Shoe Manufacturing, and of continuing

and Root and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, 19 and, Stock in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disintervated persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of labor.

labor:
The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be nereased to ten times its present power, if at any time equired, either for the purposes of this undertaking, or ir any other Manufactory. The supply is derived from prings on the Estate, is very soft in quality, and is lin fact the brushes.

Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Werks will be retained upon terms favorable to the Company.

The Land consists of \$46 acres, known as the Spring Vale Estate, some of which is or excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are succially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

The sales for 1872 amounted to mearly \$30,000, which considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the

been received.

The importations of Boots and Shoes as declared at the Custom' House for the year 1871 was about \$100.00, representing a selling value, after adding duties, etc., of any \$150.000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

ing the entire held for the operations of the undertaking.

The Tannery operations only commenced in August
last, and as the tanning process involves a period of
several months, the business of this lepartment is in its
infancy—a very superior article is, however, being produced at low prices by an economical process, and, as
there is no difficulty in obtaining an abundant supply of
Hides, the outturn will be anflictent for the supply of

Hides, the outturn will be anflictent for the supply of
Hides, the outturn will be anflictent for the supply of
the general demand for harmess, mill belting, &c., in
addition to the requirements of the Hoot ractory.

The Belmont Hoot and Shoe Factory was the first
enterprise of its kind established in the Province, and its
having been so far carried on with success is an assurance that, as population increases, very remunerative
returns will be realised.

The value of industrial institutions to the well being of
any country is indisputable, and as the hides produced
in the Province are now being manufactured into
leather, which is turn is made into Poots and Shoes,
&c., (instead of as formerly being exported and the

leather, which is turn is made into Boots and Shows, &c., (instead of se formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the ad-vantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are is any way interested in the prosperity of the Pro-vince.

Ta should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or less, loge less flost of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the Unthouses. future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Pritain and in the United States.

The transfer of the property to the company will only

Great Pritain and in the United States.

The transfer of the property to the lompany will only be made upon terms satisfactory to the Previsional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares refained by the present proprietor, a portion of which will not participate in any profit until a dividend or 10 per cent. has first been paid to the new shareholders.

Applications for shares may be made to the Secretary profess, the Pank of British Columbia, or to Mossra. Danks & Josepha.

CASES:

Monday. March 24th. 1873 Shipping Intelligence. RT OF VICTORIA, BRITISH COLUMBIA. n this city, March 21st, the wife of Thos. J. D., of twin boys Bough Trip to Barclay Sound EDITOR STANDARD : It has often been remarked, and very truth ully, that very few of tight little island,"—and I can now well in the way are really of no light order. First there must be a strong love of adventure, with a capability of really "roughing it" in those who undertake to penetrate the interior, with the delightful uncertainty as to how they are nerday, the 12th lust., for Qualicum. en route for Alberni, and was duly landed on the beach at the former place on the 13th, and after spending the greater part of that day in try to find a settler, who it appears is not there at all, but some aix or seven miles lower down the coast. We started on the rail, a very good one as far as and there finding indications of snow on the try and catch the steamer on her down trip from Comox. We were on the beach in good time, and tried our best to attract the artention of the captain of the Douglas ; but alas, although guns were fired, and a flag waved y us. straight on did the s'eamer go, closely llowed by H M.S. Peterel, and we had the until the next trip to Comox,or to walk along the beach to Nansimo. We decided, howerer, to face the snow, and try to get to and got as far as Horn lake again that night, -camped on the trail, and started at 7, a m. of Friday, across the divide, a little over sixteen hundred feet high. Found a good deal of fallen timber on the trail, along the lake. As we ascended, the snow became deeper, and the travelling very difficult and fatiguing, till on and so it would have been to us, could we have got away by any other, but we were Now, after looking around for a day or two tidea,— no common one, I believe,—
that his death was hastened, if no
setually caused by some "bad medi
cine" administered to him by two of the
tribe who were unfriendly to him, and as an act of revenge these two men were shot, the present chief taking an active part in the massacre. He made no secret of it and I saw him walking about apparently quite un concerned, although I heard the tribe were from another nearer the coast, to which the deceased men's wives belonged, and who after the murder, had gone back to their friends, taking their children with them. I believe the Superintendent of Indian Affair-bas been duly notified and will doubt'e-stake the necessary steps, as the settlers do not feel safe before their eyes.

Mr. George Clarke and party who went up about three weeks since in the Anna Beck had arrived all safe after a rough passage of a week as having six horses on the deck Captain Brown thought it advisable to put into out of a heavy storm. The horses arrived safely and were doing well; Mr. Clark speaks in the highest terms of the prudene and seamanship of Captain George Brown.
I saw here also Mesers. Wilson, McIntyre and Wordsworth, who were at work fencing. &c., but who all complained of it having been an unusually wet winter, indeed snow was o the ground then, but was fast disappearing On Wednesday the 19th inst., we left Al-CAPTAIN WARREN'S TRADING STATION Ecool, Barclay Sound; reached there at 6 whart, but Captain Warren in the Thornt had gone on to Clavoquot Sound, and would go from there to Victoria direct. We had nothing for it but to follow, and getting a fast cause started at 4 a. m., on Thursday, and about 2 p. m. fortunately sighted the from shore. She had passed us in a fog and we had a long stern chase, lu kily for us the wind was light, for if there had been much of about 10 o'clock on Saturday evening, and here let me say that had it not been for this plece of extraordinary good luck in catching the Thornton, we might indeed, must have had, to wait in Barclay Sound two or three weeks, as travelling from there in a canne at this time of year would be really dangerous.

ROAD IMPASSABLE :

EXPECTING AN ATTACK

FOR CLAYOQUOT,

ARRIVED IN VICTORIA

She is a Total Wreck, and will be Abandoned.

ENTERED.

CLEARED

of Stephen Jones,

and Back.

Captain Friis of the barque Almatia, Capquently towing the barque ashore. The st amer succeeded in part y getting her off again, however, but through the mismanageent of the crew, mo tly Indiana, the bridle line got foul of the steamer's wheel during rhich time and when trying to clear herself, the Almstia got ashore a second time, and the tide falling it was f und impossible to ge ter off. At nine o'clock yesterday morning the vessel had sustained no burt. nor had she made any water, but a heavy swell setting down the Gulf of Georgia, cast the barque on the rocks, bilging her. When aptain Priis left his vessel, her bold was fu'l of water, and she may be considered to stight little island,"—and I can now well all intents and purposes a total wreck, and inderstand wby this is so, as the difficulties will be abandoned. The first officer and crew were lef to save anything from the vessel that could be got out. The Maude remained at suchor in Oak Bay, which is only a few miles around from the entrance of our harbor The sea was quite smooth at the time of this the second disaster to the Almatia; the night was rather Jark, no satisfactory explanation The writer, in company with his sen, started by the Sir James Donglas on Wedcaused the loss of this fine vessel. An investigation by the proper authorities, is urgent-ly called for. The vessel and cargo will pro-

A Second Mishap to the Almatia. A Man is Gagged, Robbed and Left for Dead at New Westminster.

The arrivals by the Mande yesterday from ain Raymur, Pilot McKinnon, with other Burrard Inlet, report an atrocious crime, viz: gentlemen arrived in town yesterday after-noon overland from Oak Bay, where they had been landed from the steamer Mande. From the Mast r of the Almatia we get the for a supper of oysters. While at supper Mr. which vessel has only just been repaired at this port, after her diaster a few months since, at an expense of over twelve thousand dollars. At half-past two p m., on Saturday, the vessel with 303,000 feet of lumber and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport, and next took him outside to a lonely sport. on board, bound for Melbourne, left Burrard beat and left him for dead. When found, Inlet in tow of the steemer Maude, the Alma- we gathered heatily from our informant, that Inlet in tow of the steamer Maude, the Almatia being in charge of Captain McKinnon,
The tow across the Gulf was made all right,
the vessel and stramer strived near to Plumper's Pass at midnight. Captain Holmes of
the Maude, it appears, mistook the northeru
and of Gossett (?) Island, for the Pass, conseand of Gossett (?) Island, for the Pass, consetowards according to the property of the stripe of the foregoing and details of the case will
no doubt be received from New Westminster
to-day by telegraph, awaiting which, we
have placed before the public merely an outline of this dastardly assault.

THE MAGISTRATE.-A. P. Pemberton, Beq., who for the past fifteen years, or more, has sat on the beach of the Police Court of this city, and during the time giving general satisfaction to the public, takes his leave of us to-day as a Provincial officer. Mr. Pemberton is the County Court Judge, which pesition is a function of the Federal Government.

Pouce Court .- Mr. Elliott will take bir eat to-day on the beach of the Police Court, as Magistrate, under the Corporation. Mr. eigh. Town Clerk, will also act as clerk of the Police Court; at least, so we understand for the present.

THE ASYLUM.-Thomas Jenkins, an inmate the Asylum, made his escape therefrom, at one o'clock on Saturday afternoon last. He was recaptured at Esquimalt, three bours aferwards, and brought back.

REVIVAL SERVICES .- During the present week revival services will be held at Wesley Church, Pandora street, every evening, com mencing at 7:30; and afternoons, with the exception of to-day, at three e'clock.

ond in tow, arrived here on Saturday afternoon, from Nanaimo, laden with coal for Messrs. Brodrick & Co

may be expected here this afternoon.

The Ball at Clinton.

EDITOR STANDARD : Happening to be in the neighborhood of Clinton, I received a very cordial invitation to attend a ball or social gathering, to be held at the Clinton Hotel ; said ball to commence on Monday, the 24th Rebruary.

Petitions have been circulated on Maui, from a neighbor a couple of collars, bought to record the murder of a sister of Madison praying His Majesty to go to Washington, three bits worth of hey rope, and attached Neal, not more than one-half mile from the and endeavor to obtain a reciprocity treaty. my team to a gum boot box improvised for spot where her brother was sent, without ternity intend to erect a hall which will both be an ormament to the town, and very useful to themselves.

Sence of quite a number of men, that if there would until midnight, when the wedded two were left to retire. They had scarcely retired the hotel, my team and rig were the subject of eniversal admiration, and I discovered for sound of a charavari that were waited them

JUMPED OVERBOARD. - A sailor belonging persons at the ball, which commenced on agony the unfortunate bride of a few hours to the bark Sparrowhawk, jumped overboard Muday and continued until this Friday fell to the ground from which she was shortmorning Dancing commenced every night ly afterwards removed by her husband and at 8 o'clock and continuing until the large daughter to the wedding bed. The villians hours in the morning, generally about six who perpetrated this cowardly and barbar o'clock; and from what I can bear, the ladice out outrage disappeared in the darkness, bu MINSTERL PREFORMANCE.— The "Silver of the married men have made discovery after the outrage occurred. A physician Stars" perform to-night at the Albambra that in future they will be able to do without who was called probed the wound, and gave

There is one little incident I must not

There is one little incident I must not omit to mention; a toast was proposed by one of the guests, and was drank in silence: "To the memory of the late Joe Smith" (former proprietor of Clinton Hotel.) Poor old Joe! The memory of this good man is green in the hearts of all who knew him.

Before closing my epistle I may remark that the utmost good feeling and harmony prevailed during the entire time. Verily we are a peace loving people, in this section of are a peace loving people, in this section o

successful attempts to commit matrimony and the fair damsels hereabouts are so coy, i is to be hoped the boys will try again, and meet with more encouragement next time. The farmers and cattle raisers around this district will be greatly disappointed if a cattle trail is not constructed, and that without delay, to Howe Sound; thus giving them a chance to supply Victoria with the best bee

MAPSE BAT, Moreh 16th, 1878. Entres Statuand:-Will you be pleased inform me through the Wasset Statuan when the Government stopped paying \$10 bounty for paethers, as I killed one on the 27th February, in the act of enting one of my hogs. Be was the largest I have ever easn, 165 pounds weight. After he received a deadly shot he ran about 209 yards, and took a heavy dog 10 feet up a tree, but the scales were turned, it was the dog that had the held, and not the panther. This makes 18 that I have been at the killing of, and I 18 that I have been at the killing of, and I have received \$33 bounty. What they will allow for this one I don't know. I was at the killing of 12 for nothing; four part hounty; and two alone out of the lot; one got

[The bounty was altered to \$5 on the 26th February last —Bo. STANDARD.] There are a number of the settlers who want to know what has become of the \$500 that was kept back for the purpose of seeping the roads clear; the late winds have stopped all communication. Who had the right to put it to any better purpose? as Mr. Beaver writes up here that the money is all spent, and we can clear them ourselves I think that the terms of union with Canada were, we were to be governed by the well under stood wishes of the people, and that money was set aside by a full meeting of the settlers concerned, without the least opposition. I believe it is beyond the Governor's com-mission to do it. Responsible Government is only to work upon. What is the use of send ing around the tax hawker before we get compensation for what we have paid, save a few bridges? Our own money in the shape Carpets, Curtains and Blinds, of statute labor would do more work than all the money we get from the Government They give ample, but they send men to use it up to no purpose, and in some places, a damage. Some of the roads that were fixed

last year are in a fearful state. What part of the Municipality Act give the Governor power to appoint collectors where a Municipality has been formed, such without paying 10 per cent. to any one else? They can do it for half the price paid by the Government. If that is the way the Government will serve sections that apply for Municipality it is not worth the paper that it is written on. H. D., A SUSSCRIBER.

A Bride Shot.

A Richmond, Virginia, dispatch says:
"I am receipt of a dispatch from Fayette County, West Viginia, which states that a FROW Hosolute.—The bark Delaware—
the first time how immensely popular I was, by a breeze so still that it scarcely disturbed the first time how immensely popular I was, by a breeze so still that it scarcely disturbed the flooring white mountain mists. As the flooring white mountain mists acception, but at once told them that my name was Giles and not Joe. A FRIEND IN NEED!

WONDERFUL CURE OF ASTHMA OF 18 YEARS

Copy of a Letter from Mr. Fordinand Mc Devett Innkeeper & Giveer, Glenties, Co. Donegal, duted 4th March, 1861. To Professor Hollowsy.

Sir,-I suffered from asthma for 18 years, accompanied with great difficulty of breathing, and severe cough with spitting of blood. I was also afflicted with Rheumatism, and erysipelas may be of breatling, and severe cough with a processing the fing of blood. I was also afflicted with affected parts in warm water, drying, and by most skitful physicistis, and was at length pronounced by them to be before cure; as a last resource, I was induced o use your Pills and Olntment, and in the short space of a fortnight could walk about, and am now perfectly cased, to the astonishment of all who knew me.

BLOOD TO THE HEAD WITH SIDDINESS. Copy of a letter from Mrs. Mary Foster. Harf Moon Street, Totness, dated March 16th 1861.

To Professor Hollowsy.

Sir,-For many years I suffered periodically headache, and giddiness in the head, to such a degree that at times have tried your Pills and in less than a week' I was completely cured. Mrs. Donnal, Chemist, of Totness, can vouch for the truth of the above statement.

COMPLAINTS OF WOMEN AND CHILDREN. The very mild and painless action of these invaluable Pills, recommends them to every household as a remedy for the early deportures from health. Any mother, nurse, or young person guided by the direction which accompany each box of Holleway's Pills, has at once available means for checking disease, qualifying the blood, and expelling from the system all affected parts, it penetrates to the tosues gross humors. They are, indeed, at all

DISORDERS OF THE KIDNEYS & OTHER IN-

TERNAL ORGANS Loss of appetite and flatulency are usually the forerunners of stomachie dis-There famous Pills exercise the most salutary power in all affections of the This class of complaint yields without and bowels; they restore a healtry function to every internal organ, overcome

The immediate loss of muscular strength and nervous energy is more particularly remarkable in renal than in most other diseases. Their deficient action for one day suffices to produce fever, hence the Gout and Rheumatism arise from in- necessity for prompt and efficient treatffect a permanent cure, adopt a cooling merit of restoring any saspended or didiet, drink plenty of water, take six of minished secretion, and of relieving any these famous Pills night and morning, inflammation or congestion in the spices, kidneys, or other subsidiary organs.

twice a day into the suffering parts, and a . The tight, suffocating, anxious feeling sure is certain. The paralytic patient caused by derangement of the heart, chould take about three Pills twice at makes the sufferer look on present death week, and let the Ointment be well rub- | as imminent. Hollowny's Pills provens efficient and ready remedy when the disstarbed circulation depends on indigestion flatulency, or debilitated nervous vigor. Persons suffering from disturbance of the heart should take about six of these Pills two or three times a week, according to circumstances, to arrest the too schee tion of the beart. WEAKNESS, LANGOUR AND DEBILITY.

These famous Pills will immediately remove all symptoms of debility, langou and weakness as they act upon the main springs of life, and thus save thousands from premature grave. Holloway's Pills are the best remedy known is

the world for the following diseases !-Inflammation Jaurdice Liver Complaints Bilious Complaints Biotches on the Skin Lumbago Bowel Complaints Piles Rheumatism Constipation of the Retention of Urine Scrofula, or King's Evil Bowels Consumption Debility Dropsy ore Threats Stone and Gravel D. sentery Fecondary Symptom Erysip las ies Tumours Fevers of all kinds Venereal Affectic Worms of all kin Weakness, from b Indigestion
